KIWI COVER CARE MOBILE – 100% KIWI OWNED AND OPERATED • *We cover from the Cape to the Bluff!*

KIWITARP ROLL OVER SYSTEMS

Our roll over tarp system is a simple, heavy duty and very effective tarp system which can be made from Mesh or Waterproof PVC. It operates by rolling a roll tube that uncovers a tarp across the width of the bin. Kiwi Tarp roll over systems are 100% kiwi made which feature nothing but the best quality components and materials in all our systems.

Our roll over systems can be made to suit basically every bin, they are also available in a large range of colours to suit your truck.

We have manual and electric systems, give us a call today to discuss the best system for your truck.
